New York, New York 10022

Dear Sirs:

I am a new faculty member at Washington University in St. Louis after having spent the last seven years at the National Institutes of Health in Bethesda, Maryland. I work on the regulation of human B cell function in normal individuals as well as patients with autoimmune diseases, immunodeficiency diseases, and B-cell malignancies. I understand that you may be willing to provide grant money for some of my work. Could you please provide me with the necessary forms and information to apply for one of your grants? Thank you in advance for your help.

Sincerely Yours,

Julian L. Ambrus Jr.,M.D.
Associate Professor
Division of Rheumatology
Department of Medicine
